5. Save the Altera **license.dat** file.

Ensure that the text editor does not append **.txt** (or any other extension) to the filename, such as **license.dat.txt**.

6. Go to “[Set Up the License](#)” on page 11 for instructions about how to set up the Altera license.

FIXEDPC License

To set up a FIXEDPC license, perform the following steps:

1. Make a backup copy of any existing **license.dat** file for reference.
2. Save the new **license.dat** file on your computer’s hard drive. Altera recommends saving and using the **license.dat** file attached to the email. If you cannot receive email attachments, the email includes instructions about how to create a **license.dat** file.
3. If you are using the Quartus II software version 8.0 or later, skip this step. If you are using the Quartus II software version 7.2 or earlier, attach the software guard to a parallel or USB port on the PC.

The Sentinel driver for software guard-based licensing is installed automatically with the Quartus II and MAX+PLUS II software. PCs running Windows Vista, Windows XP, Windows NT, or Windows 2000 require that you install the Sentinel driver.

Quartus II software versions 6.0 and later do not support the Windows NT operating system. The Quartus II software versions 9.0 and later do not support Windows 2000. Refer to the [Operating System Support](#) page on the Altera website for updated operating system support.

Installing the Sentinel driver requires administrator privileges. If you are not logged on as an administrator, or if you do not have administrator privileges when the Quartus II or MAX+PLUS II software is installed, you must manually install the Sentinel drivers after you are logged into the PC as an administrator or granted similar permissions. At the command prompt, type the appropriate command:

- For Quartus II software:

```
<Quartus II installation path>\drivers\sentinel\setup ←
```

- For MAX PLUS II software:

```
<MAX+PLUS II installation path>\drivers\setupx86 ←
```

For additional information about installing the Sentinel driver, refer to the “Installing a Sentinel Software Guard” section in the [Quartus II Installation & Licensing for Windows and Linux Workstations](#) manual.
